Note for supplementary questions

The Govt. sanctioned an expenditure of Rs.29.34 lakhs for the improvement of the Govt. Headquarters and the Lady Gosche Hospitals at Mangalore. ~~in the year 1950~~. Subsequently in October 1950, the estimate of expenditure for the above work was revised from Rs.29.34 lakhs to Rs.28.25 lakhs. The following are the improvements and extensions to the Govt. Headquarters Hospital and the Lady Goschen Hospital, Manglaore, according to priority for the different years:-

Govt.Headquarters Hospital, Mangalore:

1951-52 Construction of Out-patient block.

1952-53 Construction of New kitchen block, external water supply arrangements including over-head tank and Medical ward block of 80 beds.

1953-54 Construction of quarters for 1 House-keeper, 40 pupil-nurses and additions and improvements to existing nurses' quarters.

1954-55 Construction of Mortuary Block, quarters for Asst. Surgeons and Nursing Orderlies and also latrine blocks.

1955-56 Conversion of existing Tuberculosis ward into isolation ward, construction of external drainage arrangement including disposal work, General Electrical distribution system and roads.

Govt.Lady Goschen Hospital, Mangalore;

1951-52 Construction of maternity ward of

(P.T.O

6

40 beds, conversion of the existing maternity ward into Children's ward, construction of post-mortem shed, garage for Ambulance and external water supply arrangement including overhead tanks.

1952-53. Construction of Steam Laundry and medical ward of 60 beds.

1953-54. Construction of quarters for nursing staff.

1954-55. Extension of the septic ward towards east side to accommodate 20 more beds, and of the out-patient ward and conversion of existing labour room into operation room.

1955-56. Construction of quarters for Asst. Surgeons and Nursing Orderlies, Latrine blocks, drainage arrangements, General Electrical Distribution system and roads.

When the scheme was taken up for execution, certain modifications to the work were found necessary. It was also found necessary to set apart the Lady Goschen Hospital solely for maternity cases, the medical and surgical cases being dealt with in the Headquarters Hospital. On account of these, the programme of dates could not be kept up. The following are the main deviations proposed:-

Govt. Headquarters Hospital, Mangalore;

(i) Out-patient block is to have additional provision for a common consulting room and dispensary and also an upper floor, as this hospital is now to serve for both men and women.

(ii) The Medical ward is proposed to be made as a three storeyed building to accommodate 120 beds, instead of 80 beds. This extra accommodation of 40 beds is made in lieu of the medical ward of 60 beds proposed to be built for the Lady Goschen Hospital.

(P.T.O.)

(iii) A septic ward of 40 beds is proposed to be rovided in lieu of the extension of the existing septic ward in the Lady Goschen Hospital.

(iv) Only one steam Laundry is considered sufficient for both the hospitals instead of two laundries.

Lady Goschen Hospital, Mangalore.

The Maternity ward has to be re-orientated for giving a better frontage and design modi--fied so as to take up a future 2nd floor.

The following buildings have been omitted either as suitable provision has been made in the Headquarters Hospital, or as they ~~have not been~~ are not considered essential:-

(i) Proposed Medical ward.
(ii) Proposed extension to septic ward.
(iii) Steam laundry.
(iv) Garage for one ambulance.
(v) Extension to existing out-patient ward.
(vi) Conversion of Maternity ward into operation room.
(vii) Conversion of Labour room into operation theatre.

In addition to the above modifi--cations, it is also proposed to construct a 'U' shaped three storeyed block in the Govt Headquarters Hospital similar to the new Out-patient block to provide for accommodation for at least 180 beds which will replace the existing surgical

ward which is over 100 years old, even though this work was not contemplated in the original scheme. In view of the present financial stringency and the need for strict economy, it was considered necessary to limit the expenditure if possible to Rs;28.25 lakhs. In that connection it was suggested that the expenditure for the construction of quarters for the staff might be reduced by adopting cheaper designs and that the existing surgical block in the Headquarters Hospital might be retained if it is not in a condition beyond repair and a temporary structure to accommodate a few more surgical beds might be constructed if necessary. The D.M.S. was asked to offer his remarks on these suggestions in consultation with the C.E., P.W.D. The C.E., P.W.D., has reported that the expenditure on the construction of the Nurses' quarters can be reduced by making certain altera-tions in the construction and has stated that a further report will be submitted in regard to the quarters for Asst. Surgeons and Nursing Orderlies. As regards the demolition of the Surgical block, the C.E. has stated that the building is not beyond repair and that its demolition can be deferred. But the D.M.S.(Dr.Rama-moorthi) considers that it is very

essential to construct a surgical block with 180 beds demolishing the existing surgical block as there is no possibility of erecting a first floor to the existing surgical block, as no alterations can be made to it for providing enough light and as it is not possible to construct temporary structures to provide more sheds for want of space in the hospital compound. He has suggested that the playground of the Govt. Arts College, Mangalore, may be taken over by the medical dept. for providing accommodation for the hospital by providing another site in front of the College for palyground. The D.M.S. has also stated that the operation theatre in the Lady Goschen Hospital should be retained and that there should be a separate mortuary for this hospital. The D.M.S. has forwarded these suggestions to the C.E. and his reply is awaited.

3 The present bed-strength of the Govt. Head quarters Hospital is 116 while that of the Lady Goschen Hospital is 120. On completion of the building schemes, there will be an increase of bed strength

if the above modified proposals are finally approved.
Jt. Sec. in L.F. II

by 350, i.e. 586 in all. The Govt. have agreed to provide in these hospitals clinical facilities to the students of the newly opened private Medical College at Manipal.

~~The D.H.S. will be sending further proposals for providing another 200 beds in the hospital for which an additional expenditure of Rs.22 lakhs is expected.~~
